Veterinary Clinical Pathologist

Poulton-Le-Fylde | Newton Abbot | Cambridge | Remotely

Full-Time 40 hours per week | Permanent

Working hours are Monday to Friday, 9am to 6pm plus Saturday Rota

Salary: £competitive (neg. on experience)

We are looking for a clinical pathologist to join our team of 4 clinical pathologists either at one of our three sites across the UK or working remotely. Having recently invested in digital pathology as part of our continuing investment to deliver on our client's needs, now is a great time for you to become part of the team and have a real impact on the future directions of the business. Nationwide Laboratories is an independent veterinary diagnostic laboratory, with a specialist cytology and histopathology team, dealing with all species, but predominantly companion animals. We are dedicated to the improvement of animal health through direct support of veterinary practices in the UK and worldwide and have been delivering our services for over 30 years.

Who we are looking for

- Applicants must have experience in diagnostic clinical pathology.
- A post-graduate qualification in Veterinary Clinical Pathology is an advantage, but not essential. FRCPath accreditation, board certification in clinical pathology from the American College of Veterinary Pathologists (ACVP), or the European College of Veterinary Clinical Pathologists (ECVCP) is preferred. Board Certification in Veterinary Medicine also considered.
- Eligibility to complete the board certification examinations would also be considered an advantage and for those wishing to gain additional qualifications, time can be made available for study and we are able to supervise candidates for ACVP, ECVCP and FRCPath membership.
- The successful candidate would be expected to have good organisational, interpersonal and communication skills, be customer focused and supportive of the team.

What you will be doing

- Review of clinical findings and laboratory results of samples, to produce interpretive reports for submitting veterinary practices.
- Evaluate cytology samples to produce descriptive and interpretive reports for submitting veterinary practices
- Fulfil statutory RCVS requirements (and other Colleges as appropriate) regarding to the maintenance of professional competency – including CPD, current advances and industry concepts
- Participate in team activity /meetings / events
- Participate in production of materials for presentations, newsletters, or literature to further promote the business.
- Work with submitting practice teams to ensure suitability of samples and diagnostic tests requested.
- Liaise with technical staff regarding technical processes, existing and new to ensure they meet client requirements and professional standards.
- Participate in staff training and development.
- Deliver high levels of customer service through telephone and face to face interactions.
- Ensure safe working practices are adopted and followed.
- We encourage the preparation of scientific papers and presentations.

What we Offer

- Enhanced company pension scheme.
- Competitive Salary.
- Savings related share option plan.
- 32 days paid holiday (inc bank holidays) (Pro-Rata)

- Extra Holiday for long service.
- Extra Life assurance benefit.
- Cycle to work scheme.
- A 24/7 confidential employee assistance program.

How to Apply / Contact
