

THURSDAY, September 9, 2010

Room	Caravelle	Cassiopee	Ariane	Guillaumet	Spot
Time/Society	VBPS	ESVIM/ISCAID	 NOVARTIS ESVNU	ESFM/ESVONC	ESVCP
8:30-9:10	Martina Mosing (GB) new aspects in blood pressure monitoring during anaesthesia - part I	Pierre-Edouard Fournier (F) Vector-borne diseases – an update on the current situation in humans	Jacques Pourrat (F) Acute kidney injury: Classification and recent advances on mechanisms and treatment	Michael Willmann (A) Feline mast cell tumours	1 Hohneck Spodsberg 2 Giunti 3 Liebenberg
9:15-9:55	Martina Mosing (GB) new aspects in blood pressure monitoring during anaesthesia - part II	Iain Peters (UK) PCR and its role in the diagnosis of vector-borne diseases	Joost Schanstra (F) Urinary proteomics in kidney disease	13 Kessler 14 Peter 15 Hadzijusufovic	4 Brown 5 Nielsen 6 Gaal
10:00-10:30	COFFEE BREAK – EXHIBITION				
10:35-11:15	Valérie Chetboul (F) Blood pressure and the heart - what we knew and what is new	Xavier Roura (E) Pathogenesis of canine leishmaniasis – new interactions of an old disease	Magnus Røger (N) Pathological lesions in acute kidney injury	Antony Moore (AUS) Epidemiology of feline cancers	7 Smets 8 Giori 9 Martin
11:20-12:00	 Torkel Falk/ Sophia Moesgaard (DK) In vivo and in vitro implications of arterial remodeling in canine myxomatous mitral valve disease	Eric Zini (CH) Canine leishmaniasis – challenging treatment of a multifaceted disease	Bert Maddens (B) Urinary markers for acute kidney injury in dogs	Antony Moore (AUS) Feline mammary tumours	10 Riond 11 Weber 12 Lilliehook
12:00-13:30	LUNCH BREAK				
12:40-13:20	12:30–13:20 Oncology meeting	ESVIM Board Meeting 12:00-13:30 ESVC Board Meeting	ESVNU AGM	ESFM AGM	VBPS AGM
	ESVCP	ESVIM/ISCAID	 NOVARTIS ESVNU	ESFM/ESVONC Abstracts	VBPS Abstracts
13:30-14:10	Peter Graham (UK) Impact of analytical method on endocrine diagnosis	Gad Baneth (IL) Canine and feline hepatozoonosis	 ESVNU Hill's award lecture Larry Cowgill Extracorporeal Blood Purification in Animals: The Past, Present, and Future	24 Adams 25 Biermann 26 Bennett	44 Höglund 45 Wiberg 46 Merveille
14:15-14:55	Dan Rosenberg (F) Determining the cause of canine hyperadrenocorticism by corticotropic function characterization	Séverine Tasker (UK) Haemotropic mycoplasmas in cats, dogs, and humans	32 Agnoli 33 Maddens 34 Chakrabarti	27 Korman 28 Kuehner 29 Riviere	 Michael Day (UK) <i>Master Class</i> Clinical Immunology
15:00-15:40	Sylvie Daminet (B) Thyroid function in cats: is there more than T4?	Ed Breitschwerdt (USA) Bartonella causing disease in dogs and cats	35 Finch 36 Vitiello 37 Rossi	30 Osto 31 Freiche	Michael Day (UK) <i>Master Class</i> Clinical Immunology
15:45-16:25	Sylvie Daminet (B) Pitfalls in the diagnosis of canine hypothyroidism	Ed Breitschwerdt (USA) Bartonella infection in humans and its role as zoonotic agent	38 Maurey-Guenec 39 Dorsch 40 Nickel		Michael Day (UK) <i>Master Class</i> Clinical Immunology
16:30-17:30	 Nestlé  PURINA Poster Vine and cheese reception				
17:35	ESVCP AGM	ECVIM-CA AGM			

FRIDAY, September 10, 2010

Room	Caravelle	Cassiopee	Ariane	Guillaumet	Spot
7:45-8:15	ESVE board meeting		VCP editorial board meeting		ESVNU board meeting
Time/Society	ESCH	 ESVC	ESVCP	ESFM/ESVONC Abstracts	ESVIM/ISCAID Abstracts
8:30-9:10	Nick Bexfield (UK) A search for a novel virus in English Springer Spaniel hepatitis	 Phil Fox (USA) Restrictive / unclassified /ARVC or end-stage HCM? Clinical-pathological correlates	Håkan Andersson (S) Raging hormones in preclinical research	16 Zandvliet 17 Elliott 18 Forlani	47 Mylonakis 48 Garden 117b Klosterman
9:15-9:55	Hille Fieten (NL) Copper associated hepatitis in Labrador retrievers	Virginia Luis Fuentes (UK) Survival and outcome in HCM – a review of prognostic factors	Aurore Varela (CDN) Holistic interpretation of bone metabolism	19 Coenen 20 Fornel-Thibaud 21 Kessler	49 Nienhoff 50 Grellet 51 McClure
10:00-10:30	COFFEE BREAK – EXHIBITION				
10:35-11:15	Mairi Speeti (FIN) The immune system in Doberman hepatitis	 Luca Ferasin (UK) Syncope in cats	Florence Poitout (CDN) Decreased food consumption and its consequences on clinical pathology data	22 Rivera 23 Benchekroun	52 Vanherberghen 53 Gallagher 54 Mercier
11:20-12:00	Baukje Schotanus (NL) Liver stem cells in the pathogenesis of canine hepatitis	 Panel discussion: which cardiomyopathy does this cat have? Fox (USA), Schober (USA), Ferasin (UK), Haggstrom (S)	Cory Brayton (USA) Animal models in endocrine disorder research	Peter Valent (A) Diagnosis, Classification, and therapy of mastocytosis	55 Glaus 56 Paul 57 Bexfield
12:00-13:30	LUNCH BREAK – EXHIBITION				
12:40-13:20	ESCH AGM	ESVC AGM	ESVIM AGM	ESVONC AGM	
	ESCH Abstracts	ESVC Abstracts	ESVIM	ESFM/ESVONC	ESVCP
13:30-14:10	64 Lindquist 65 Otte 66 Dyggve	67 Günther 68 Hezzell (22) 69 Green	Andrew Hoffmann (USA) Lung function testing in humans and domestic animals – why and how?	 Antony Moore (AUS) Treatment of feline lymphoma ESFM Hills award lecture	Case presentations
14:15-14:55	41 Rowlands 42 Höglund 43 Pelligand	70 Oyama 71 Zois 72 Tidholm	Reinhard Hirt (A) Pulmonary function testing in companion animals	Angie Hibbert (UK) Feline thyroid carcinoma	Case presentations
15:00-15:30	COFFEE BREAK – EXHIBITION				
15:35-16:15		73 Hezzell (20) 75 Copeland	Andrew Hoffmann (USA) Stem cell biology in lung regeneration	Mark Peterson (USA) Update on recent research in feline hyperthyroidism	Examination review for residents and supervisors
16:20-17:00		76 Payne 77 Margiocco 78 Misbach	Gerhard Oechtering (D) What's new in brachycephalic syndrome?	Mark Peterson (USA) Feline adrenal tumours	Johan Schoeman (SA) Tips on how to set and answer multiple choice questions
					Meeting scientific committee
 Congress evening					

SATURDAY, September 11, 2010

Room	Caravelle	Cassiopee	Ariane	Guillaumet	Spot
Time/Society	 ESVE	ESCG	 ESVC	 ESVCN	ESVIM Abstracts
8:30-9:10	Eric Zini (CH) Continuous monitoring of blood glucose	Erwin Zoetendal (NL) Intestinal microbiota in health and disease - the human perspective	Karsten Schober (USA) Treatment of feline heart disease – a critical look at the current evidence	Nathalie Priymenko (F) Proteins in pets: a putative past paradox	58 Diquélou 59 Merveille 60 Krafft
9:15-9:55	Ian Ramsey (UK) Current issues with trilostane	Jan Suchodolski (USA) Molecular analysis of the intestinal microbiome in health and disease	 Phil Fox (USA) Echocardiographic diagnosis of Hypertrophic Cardiomyopathy	Denise Elliott (USA) Satiety is a key player in successful weight management programs	61 Krafft 62 Heikkilä 63 Heikkilä
10:00-10:30	COFFEE BREAK – EXHIBITION				
10:35-11:15	Johan Schoeman (SA) Relative adrenal insufficiency: - debunking the myth	Jan Suchodolski (USA) Effects of antibiotics, probiotics, and prebiotics on the intestinal microbiome	David Connolly (UK) Feline biomarkers	Christine Iben (A) Importance of amino acids in critical care nutrition	Case presentations
11:20-12:00	Claudia Reusch (CH) Atypical Addison's disease	Karin Allenspach (UK) Beyond histopathology: Using advanced immunological techniques to improve understanding and diagnosis of chronic enteropathies in dogs	 Panel discussion: How should we screen for HCM? Fox (USA), Schober (USA), Haggstrom (S), Connolly (UK)	Adronie Verbrugghe (B) Dietary fibre and carbohydrates in healthy, obese and diabetic cats: a critical review	Case presentations
12:00-13:30	LUNCH BREAK – EXHIBITION				
12:40-13:20	ESVE AGM	ESCG AGM			ESVCN AGM
	ESVE Abstracts	ESCG Abstracts	ESVC Abstracts	ESVCP	ESVCN Abstracts
13:30-14:10	91 Gilor 92 Forcada 93 Zini	103 Jergens 104 Schnyder 105 Belshaw	79 Palermo 80 Dennis 81 Green	Mads Kjelgaard-Hansen (DK) The benefit of using canine C-reactive protein routinely-diagnostic and monitoring aspects	112 Hahn 113 Leray 114 German
14:15-14:55	94 Hafner 95 Fall 96 Niessen	106 Grütznér 107 Grellet 108 Unterer	82 Rishniw 83 Ferasin 84 López-Alvarez	Dominique Brees (UK) Diagnostic RNAs in biofluids as biomarkers of toxicities	115 Jewell (261) 116 Jewell (158) 117 Houston
15:00-15:30	COFFEE BREAK – EXHIBITION				
15:35-16:15	98 Smets 99 Fracassi	109 Mandigers 110 Lee 111 Ruhnke	85 Wendt 86 Oliveira 87 Savarino	Itamar Aroch (IL) Interpretation of neutrophil cytoplasmic toxicity in dogs, cats, and horses	
16:20-17:00	100 Galeandro 101 Braun 102 Fanini	European Emesis Council Award Jan Suchodolski	 88 Hoepfner 89 Atencia 90 Porciello	Harold Tvedten (S) A new look at the differential leukocyte count	
FAREWELL DRINK
